

Provider Communication

Subject: EFT Payment Delay	Priority: High
Date: May 3, 2004	Message ID: ACSBNR-05032004-1

Dear Provider:

Due to a delay in this week's claims processing cycle, electronic funds transfers (EFTs) will be delayed by up to one business day. This means that providers may receive EFT payments from this week's payment cycle on Wednesday rather than the customary Tuesday. Availability of RA's and Activity Reports from this week's cycle may also be delayed up to one day.

Thank you for your continued participation in the Georgia Medicaid and PeachCare for Kids Programs.
